WORLD OF RADIO HITLIST update March 4:
Hi Glenn, my latest Hitlist update.
https://www.w4uvh.net/hitlist.htm

1) Taiwan – R Taiwan Int: Updated link to latest programme schedule. The next update is scheduled for end of March. Best wishes and 73, Alan Roe

** ALGERIA. 15140, Feb 27 at 0726, S4/S5 JBA carrier – first thought it might be RHC afternoon frequency testing, English at 2000 not heard for months – but EiBi shows Ifrikya FM, Ouargla on 15140 from 0700, not in Aoki. At 0729 also have JBA carrier on 17600, the Béchar frequency from 0700. Springish propcons starting to appear (Glenn Hauser, OK, WOR)

** ALGERIA. 13855, March 4 at 2320, presumed Ifrikya FM, Ouargla, S9/+10 talk direct but JBM, per EiBi at 1900-0100. 13640, Béchar, March 5 at 2315, S9/+10 but JBM, // 13855 Ouargla S9/+10 but slightly less JBM, i.e. more modulation. 13640 sked is 1900-0300. Weakest link syndrome, JBM feed from studio? (Glenn Hauser, OK, WOR)

** ARGENTINA. 28466 USB, March 4 at 2317, Juan LU9HVR in Córdoba province making quick contacts among quite a bit of activity on 10m. QRZ.com with photos of self, equipment, 10m certificates: ``LU9HVR Argentina flag Argentina, JUAN PABLO COSTANZO, SIMON BOLIVAR 500 Y PJE PUBLICO, RIO CEBALLOS-CORDOBA 5111, Argentina`` (Glenn Hauser, OK, WOR)

** ASCENSION. 15490, Feb 17 at 0728, French at S9: BBC at 0700-0729 only (Glenn Hauser, OK, WOR)

** ASCENSION. 12050, March 4 at 0744, Afro music, S6/S7, the SSOB from R. Ndarason Int`l this hour targeting Chad (Glenn Hauser, OK, WOR)

** BRAZIL. 9818.55, March 5 at 0722, JBA carrier, no doubt R. Nove de Julho on signature skewed frequency, which had been off for several nights, as also reported by:

``Manuel Méndez, Lugo, Spain: BRAZIL, 9818.6. After several days off the air, Radio 9 de Julho, São Paulo is back on 9818.6. Heard right now, 0645, 05-03, with its usual religious program. 25422.``

And Rudolf Grimm, SP, reported March 3: ``9818,9 kHz: Radio Nove de Julho, São Paulo SP: Active, but not continuously in SW`` (Glenn Hauser, OK, WOR)

** CANADA. 2598 USB, March 1 at 0741 UT, YL voice with marine weather for Newfoundland from Environment Canada as of 4 AM NST = 0730 UT, S8.

2749 USB is weaker S7, March 1 at 0742 UT, same synth YL voice with similar marine weather info from Canadian CG.

Here are the ones which fit by timesharing per:
https://www.ccg-gcc.gc.ca/publications/mcts-sctm/ramn-arnm/part2-eng.html

``Table 2-10 – Placentia {NF/NL} MCTS/VCP – Broadcasts
07:37 St. Lawrence 2598J3E Radiotelephony
Technical marine synopsis and forecasts for marine forecast areas 231, 232, 233, 234, 235, 236, 237 and 238.
Weather for marine forecast areas 213 and 215.
Ice Edge and Conditions South Coast east of Penguin Island, East Coast to Cape Freels.

Notices to Fish Harvesters (when available)``

``Table 2-24 - Sydney {NS} MCTS/VCO - Broadcasts
07:40 Port Caledonia 2749J3E Radiotelephony (English followed by French)
Technical marine synopsis and forecasts for marine forecast areas 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 231 and 232.
Wave height forecast for marine forecast areas 209, 210, 211, 212, 213, 214, 215 and 217.
Notices to Fish Harvesters (when available)``

I am still not clear whether these skeds stay at same UT yearound or shift one real UT hour earlier with DST from March 9, and whether that be reflected immediately at the CCG site (Glenn Hauser, OK, WOR)

** CANADA. 6754 USB, March 2 at 0342, Trenton Military, still ``no report received`` from Shearwater, Greenwood, Gander, Halifax; and for good measure repeated several times. Anyone ever hear CHR now with any reports received? (Glenn Hauser, OK, WOR)

** CANADA. 15034 USB, March 4 at 1550 UT, ``Trenton Military, Trenton Military, time: 1450 [sic] zulu`` and ``no report received`` from the AB/MB cities/airports. Standard derision (Glenn Hauser, OK, WOR)

** CHILE. 28485 USB, March 3 at 2135, CA3PHX making quick contacts in English or Spanish, with North, Central American stations. Had a hard time understanding the last two fonetix of his call, finally decided they were ``hotel, x-ray``. QRZ.com with lots of photos of him and his equipment: ``CA3PHX Chile flag Chile, Mauricio "Mauro" Pacheco, La Florida, santiago chile. +56984082037 Chile`` I already logged him Dec 25, 2024 on 28505 (Glenn Hauser, OK, WOR)

** CHINA [and non]. 15800, March 5 at 2318, S8/S9 JBA with Doppler flutter, no doubt CNR1 jammer vs Sound of Hope, nothing else listed. 15610 ditto at 2317. Certainly not WEWN, which reactivated carrier here briefly but never resumed programming. M. Angelica`s ghost must prioritize Spanish on 12050 (Glenn Hauser, OK, WOR)

** COSTA RICA. See 80m hams, abottom

** CUBA [and non]. 870, March 3 at 0640 UT, wobbler, or whipper about equal level to WWL. Not on 1040 or anywhere else now (Glenn Hauser, OK, WOR)

** CUBA [non]. 891 & 889, March 4 at 0726, no 1 kHz spurs heard now nor for quite some time. This must be why: ``The transmitter from 890 may have moved. I just got back from Florida and 890 R.Progreso was nonexistent. Rick Kenneally, Wilton, CT``, March 4, IRCA iog. CMDZ in Chambas was rated 200 kW per WRTH 2025 (Glenn Hauser, OK, WOR)

** CUBA. Was RHC 6000 on tonight? Did not check until 0407 and no signal. Still greatly improved mod? (Glenn to WOR iog Feb 27)
Replies:

``Just heard them at 0510 in Spanish, but can confirm that there was nothing an hour earlier. Last night I noted an abrupt cut at 0501:30 during English. Nothing heard for at least the next quarter hour. Tony Pavick, BC``

Yes, very strong into Masset with Spanish programming and excellent modulation. Walt Salmaniw, BC (05:10 UTC)``

``RHC was up this morning at 1159:30 UT on 6000 khz in Spanish with a good strong signal, with less than perfect modulation, but a listenable signal nonetheless. I did not hear them at the same time

the day before. Tony Pavick, Hope BC``

My further monitoring Feb 27: VG Spanish at 0520 on 6000, still at 0608, 0706, even 0717+ direct at S9+45 good mod level but slight distortion. If this be only frequency they can run at night, sensible to split it English/Spanish (Glenn Hauser, OK, WORLD OF RADIO 2284)

** CUBA. 15230, Feb 27 at 1551, S6/S8 carrier, now with some suptorted modulation seeming Spanish, so RHC improving slightly (Glenn Hauser, OK, WOR)

** CUBA [and non]. 6000, March 1 at 0248, JBA signal must be Turkey, RHC off again. Next check at 0600, is on, in Spanish but off before next check 0715 (Glenn Hauser, OK, WOR)

** CUBA. 15230, March 3 at 1540, RHC S8/S9 but suptorted music. Something`s always wrong at (Glenn Hauser, OK, WOR)

** CUBA. 15230, March 4 at 1551, RHC S5/S7 and just barely modulated, rather than totally dead air. Regular here pointlessly before 1600; never a show on 15140 now or later. SAWA (Glenn Hauser, OK, WOR)

** CURACAO. See 80m hams, abottom

** HAWAII. See 80m hams, abottom

** IRAN. 1322.989-, March 4 at 2334, Qur`an catches my ear via UTwente, as I am rechecking the IRRS/AM Italia frequency which carries WOR at 2100 Tuesdays, today with some CCI under. Per mwlist this is surely the 50 kW IRIB external service in Azeri, 50 kW from Jolfa, which is normally off the air 2020-0120, but this is Ramadan, so now it`s all-night as in WRTH showing for // 7230 during March, and which is also audible with same on 7230.006+. There is a variety of music, soft talk, and the very pleasant soft VIRI interval signal, periodically such as at 0009, 0017 March 5. At latter time, also some pulsing QRM, surely not jamming (Glenn Hauser, OK, WOR)

** JAPAN. 15280, Feb 27 at 0727 S6/S7 music, 0730 Japanese; NHK scheduled 0655-0950; also a Sound of Hope channel, so subject to CNR1 jamming but none of that now (Glenn Hauser, OK, WOR)

** KOREA NORTH. 11635, March 2 at 0750, choral music at S9, nothing listed now in Aoki, EiBi, or HFCC. 0800 VOK IS, Russian? announcement, heavy Korean accent, and anthem, but also CCI from something else; and ACI from 11640 which would be CRI in Cantonese. EiBi & Aoki do show 11635 as a VOK/KCBS frequency but only at 1800-2350. WRTH does show Russian at 0700-0900 but on 11735! mispunched entry or changed? (Glenn Hauser, OK, WOR)

** KURDISTAN [non]. 11550.9, March 2 at 0359, music at S9/+10 with a het from 11550.0, axually not sure which one music be on. Presumably the TurcoKurdo radiowar, Dengê Gel via ARMENIA and Turkish jammer, starting at 0400 per EiBi; could be anywhere in the 11.5s (Glenn Hauser, OK, WOR)

** MARTINIQUE [and non]. 4811.10 AM, March 4 at 0729, clean AM open carrier only, instead of the usual STANAG 4285 wideband noise from FUF, Fort-de-France, which Klingenfuß 2022 listed on 4811.8. Default to this? Normally blox Perú 4810, but not even a carrier from that heard for some time (Glenn Hauser, OK, WOR)

** MARTINIQUE. See 80m hams, abottom

** MEXICO [and non]. 800, March 4 at 0750 UT, very heavy distortion still blocking KQCV OKC, i.e. XEERG, NL (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1549.82, Feb 27 at 0732 UT, JBA carrier again direct, some 1550 off-frequency, XEREL? Not hearing the 810.6v mystery lately (Glenn Hauser, OK, WORLD OF RADIO 2284)

UNIDENTIFIED. 1549.82, Feb 28 at 0704 UT, JBA carrier hetting 1550.00 stations, weaker than 810.56 at this time. XEREL? (Glenn Hauser, OK, WOR)

** MEXICO. 1549.82, March 1 at 0725 UT, JBA carrier making het with 1550s, suspected XEREL. Earlier on Feb 28 I contacted Mike Jeziorski in Querétaro:

``Mike, I`ve been getting a carrier late at night on about 1549.82. Suspect it`s XEREL in Morelia - could you check that out? I`ve been hearing it direct and on the Qro KiwiSDR - are you involved in that? 73, Glenn Hauser, Enid OK, USA``. Reply:

Re: 1549.82 signal, Mike Jeziorski, To me · Sat, Mar 1 at 4:07 AM
``Hi Glenn, Thanks for your note. Tonight I started investigating my archived TOH recordings from the past few days, when my W6LVP loop was pointed directly to favor Morelia (142 km/88 mi). Here's what I know so far:

I also see a carrier at 1549.822. Occasionally its amplitude rivals signals clustered around 1550, where I typically hear non-IDer WPFC {Bâton Rouge LA} or the Florida stations at night.

I had not heard anything from XEREL since April of 2024. However, on my recordings this week from Feb. 26, at 0059 UTC I hear a station giving the slogan "Radio Pública de Michoacán". That matches the location of XEREL, but would be a rebranding. The 1549.822 carrier was present but not strong when I heard that audio.

During my few years since returning to DX, XEREL has varied between weak and regularly heard. I can't say that not hearing them in almost a year means they have been off or weak, but they are far closer to me than anyone else on 1550.

At the TOH around 1300 UTC, when Louisiana and Florida are in full sunlight but my path to Morelia is in darkness, I can sometimes see a signal on the offset, but not a strong one. I have not gotten audio at that time.

The Kiwi currently listed in the state of Querétaro is in San Juan del Río and is hosted by DXer René Chávez. My Kiwi is listed in Juriquilla, Querétaro, but has been out of commission for a couple of weeks due to a problem with the splitter/combiner I use. I will keep looking into this. 73 Mike Jeziorski``

``Mike, Excellent, just the kind of info I am seeking. It certainly seems like XEREL by elimination, doesn`t it? Maybe you can also get a bearing on it with the loop or even a portable with ferrite if there is enough signal isolated. Look forward to your further research. 73, Glenn``

``Hi Glenn, Thanks. I don't believe in process of elimination with Mexican stations -- there are too many unknowns. For one thing, if XEREL is barely readable for me just up the road, are they really getting out to Oklahoma? But part of the research will be figuring out when the offset carrier first showed up on my recordings. I don't think the W6LVP loop is precise enough to trust bearings, except perhaps nulls. 73 Mike``

``Mike, OK. By getting a bearing I meant by nulling 90 degrees away...

73, Glenn`` (Glenn Hauser, OK, WOR)

** MEXICO. 1549.82, March 3 at 0547, JBA carrier still perceptible probably from XEREL, Morelia, Michoacán (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6935 AM, March 2 at 0341, S9/+10 but hardly any modulation audible in noise level. A few logs here as Boat Anchor Radio:
https://www.hfunderground.com/board/index.php/topic,141683.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 9920 USB, March 2 at 0357, S8/S9 music, would take for discovering a licensed NF if it were not in SSB; Soon YL ID as Mix Radio International, still at 0417 but off by 0430. Then I see it had been heard as early as 0142 first on 9907, and off at 0416(?) per:
https://www.hfunderground.com/board/index.php/topic,141672.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11529.9, March 3 at 1545, not even a JBA carrier from the pirate, ex-Hikari FM, nor have I perceived it for several days in random day and night chex. Last log I see was from Rick Barton, AZ on Feb 22. Anyone heard it since or from now on? (Glenn Hauser, OK, WOR)

** NORTH AMERICA. Re 11529.9, ex-Hikari FM missing lately, Ron Howard replies: ``Hi Glenn - Here is the quick reply from Ivan, who operates the station. Ron (Monterey, Calif.)

"Sorry about the blackout, the shortwave transmitter is not doing great and I took it down for investigation. There are harmonics that might interfere a little with other stations if my signal is strong. They are not bad but at this point I have figured out how to design it differently and avoid class D modulators. I am also trying to get into California right now on 1710 khz and it is difficult to run two transmitters at a time. There is some success though so I think keep a lookout on 1710, hopefully I will be able to get a signal into your area. Right now it is there but it is weak and XEPE [Tecate, Baja California, Mexico]{1700} is a problem. I plan on rebuilding the shortwave transmitter entirely or at least looking at the schematic and seeing if there are any shortcomings that need to be fixed. I am switching over to class G modulators, they require no filters and have better audio. They are slightly less efficient and require multiple power supplies or DC converters. Hopefully I can get everything working properly soon. Very Best Regards, Ivan" (via Glenn Hauser, OK, WOR)

** OKLAHOMA. 1390, March 5 at 0747 UT, dead air at S9+65 from my nearest local KCRC Enid, instead of stupid sports talk; same of course on its sibling, 1640 KZLS, S9+45. Both finally enliven at 0800. Nothing else can be heard under 1390 without nulling, inconvenient at this late hour, but else is on 1640, heard 914 area code, but must have been on a network as that`s Westchester County north of NYC, no 1640 stations (Glenn Hauser, Enid, WOR)

** OKLAHOMA. For the record, no changes in the local pirate/Part 15 radio scene in Enid this week, checked Feb 28 around 2045 UT: 95.1 open carrier in $tereo is still on in downtown, formerly music accompanying the `Tree of Lights` for Xmas.

1670 AM, Feb 28 around 2045 UT, Virtual DJ Radio relay, still audible weakly around downtown.

101.7 FM mono, additional dead air around downtown Enid only, presumably an RF feeder in a parked car depleting its power supply to feed nothing.

Broadway Tower transmitters are still OFF, 91.1 KKRD, and 105.5 K288FX (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.1, March 5 at 2040, undermodulated $tereo country music from Part 15 in downtown Enid, normally dead air, and resumes that by next check 2118 (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.7, March 5 at 2035 UT, dead air from KXLS ``Lahoma`` = Enid market, but remodulating at 2042 check; the same cluster providing DA on 1390/1640 (Glenn Hauser, OK, WOR)

** PHILIPPINES. Re my hearing R. Pilipinas, 15190 still on past 2000 UT Feb 25:

``[bdxc-news] Radio Pilipinas World Service extended hours --- Rumen Pankov reported (16 Feb) that he had heard Radio Pilipinas at 1730-2030 UT over the previous 3 days on 9925, 12120 and 15190 kHz via Tinang in Tagalog (Filipino) / English. So with an extra hour 1930-2030 to previously scheduled.

I tuned in yesterday (26 Feb) and, yes, the 1730 broadcast is still on air until 2030 UTC. Very good reception on 12120 kHz and 15190 kHz, especially at first (9925 kHz much weaker here). They still announced just 1730-1930, together with the frequencies, at sign on, though (anyone noticed if their 0200-0330 transmission has also been lengthened?) 73 Alan Pennington, Lowe HF-225 Europa, Wellbrook ALA 1530 loop, Caversham, UK, Feb 27`` (Glenn Hauser, OK, WORLD OF RADIO 2284)

** PUERTO RICO. 391 MCW kHz, March 5 at 0732 UT, DDP, ND beacon heard for first time since Dec 27 altho there was a carrier on Jan 11. I check for it every night in bandscan. Can`t hear it tuned to 391 USB due to somethings on 392, 395, but clearly with 391 LSB. This time there is nothing audible further north than perennial 293 FBY FairBurY, Nebraska. RNA Signals List says 2000 watts at San Juan / DoraDo / Luis Muñoz Marín Intl. Still haven`t been able to hear any others in Caribbean, Latin America if even active (Glenn Hauser, OK, WOR)

** ROMANIA. 9545, March 2 at 0353, vocal music, soon RRI ID in Spanish, then presenting their entire B24 SSSked dated 27/10/24 to 29/3/25, S9+20/30 and then find weaker // on 9740 only S9+10/20. 9545 is Galbeni at 310 degrees for CIRAF 10, much closer to thisaway than 9740, Tsiganeshti at 247 degrees for CIRAF 14 (Glenn Hauser, OK, WOR)

** SAINT LUCIA. See 80m hams, abottom

** SAUDI ARABIA. 11934.9, March 3 at 1546, JBA carrier, presumed Rep. of Yemen Radio via Riyadh on signature skewed frequency. However, Tony Pavick has reported via NASWA Flashsheet: ``11935.03 SAUDI ARABIA. R of Yemen Radio, 1700, 26 Feb. ARABIC: Military sounding music. Slightly high from nominal 11935. Fluttery signal, fair quality {Pavick-BC}`` (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Fri Feb 28 at 2300, token English from SNR, S9+40/50 into Georgia SDR, 17715 almost as good, 17755 JBA and 12030 still AWOL. After news, 2309 contact info by a different YL voice than the usual two. 2310 feature interview about a museum (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Mon Mar 3 at 2300, token English from SNR VG direct, good on 17715, fair on 17755, still missing from 12030; previews topic to be roots of Spanish astronomy - or rather gastronomy upon quickcheck at 2322, interviewee with a very heavy accent (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Wed Mar 5 at 2300, token English from SNR, S9+30/40 direct, preview feature about an International Art Fair featuring S America; 2301 news leads with *rump getting a letter from Zelenskyy; tariffs against Mexico and Canada kick in, retaliation promised. Still NO 12030; 17715 S8/S9, 17755 JBA. Sorry, I`d rather SEE art than HEAR about it (Glenn Hauser, OK, WOR)

** SWAZILAND [and non]. 15105, Feb 28 at 1617, talk S6/S7 with heavy Doppler flutter, while another signal on 15125 has not. 15105 is TWR Eswátini, while 15125 is CRI via MALI. Propagation quite disturbed, K index at 1500 was 4.67, geomagnetic storms occurred and expected at G1 level per SWPC. 15105 route is trans-equatorial, 15125 is not; or 15105 could be long-path traversing australis auroralism (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Fri Feb 28 after 2300, VOT English S9+15/25 into Georgia SDR; S9+35/40 into UTwente. 2336 outro for `Did You Know That?` - I wonder what, music. 2341 multi-lingual ID filler reel, 2343 music. 2354 s/off as if it`s 1330 on 13635: something`s always awry at Ankara. 2355 IS opening notes chopped off before could play twice, uncovering understation CCCCCCI, standard denunciation. VOT English program sked as of Feb 27 compiled by Alan Roe correctly accounts for `DYKT` on Fridays:
https://app.box.com/file/1789261456473
(Glenn Hauser, OK, WOR)

** TURKEY. 5960.002, Sunday March 2 at 2300, VOT English not off the air, S9+40/45 into UTwente, s/on with date, and news. Next check 2317 the CCCCCCI is now on but well under, during a commentary, until 2319 about foreign affairs, title per Alan Roe`s sked is `The Pulse of Turkish Foreign Policy`; TRTVOTVOrld.com promo, and start `Letterbox`. Same new YL hostess as last week, says QSLs have been sent to those reporting since resumed Feb 17. Those called this week, many of the names not understandable: 1) Portugal; 2) Antonio? from Croatia wanted a song to be IDed; 3) Chakroborty, India, laments skiresort fire disaster; 4) John Jurasek, Orlando FL, welcome back; 5) Alan Roe, UK, welcome back, heard since Feb 18, explain what happened? She repeats briefly what said last week, and makes a point again that there is now only one ``political`` program, on Fridays: I guess that would be the `Foreign Policy` one which just repeated today. 7) Christer Brunström, Sweden, TV audio on SW was not a good idea, she agrees. 2329 a song.

2333, 8) Lithuania, report for QSL. 9) Chris? from Canada; 10) Chris Campbell [Ohio], says VOT his favorite station, has been SWL since 1986 and plans to visit Turkey soon; 11) Mike? from Belgium. 12) Harold -?, Boston. 13) Guy? Atkins, USA. 2342 contact info, closing song from Azerbaijan, singer with guitar. 2347 Letterbox outro. Then some other talk I missed instead of music fill. 2352 s/off as if 1330 on 13635: awry. 2353 IS. 2356 restart IS with German IDs: erroneous. 0000 March 3 timesignal and German s/on. 0010 same `Letterbox` theme now called `Briefkasten`. Keeps going in German, but by 0016 I notice Chinese only, which has been uncovered sounding just as strong as VOT was (Glenn Hauser, OK, WOR)

** TURKEY. 5960, March 3 at 2259 direct, no signal but JBA on 9610, but by 2301, JBA carrier on 5960 from VOT to NAm. Into UTwente at 2325, 5960.003 is S9+40/50 with 6CI; during cute talk about famous cats inhabiting the White House, 10 Downing St., Hermitage in St. Pete, Hemingway house in Key West, Hugo Chávez in Cáracàs [sic], Kosovo. I guess it`s the item Alan Roe refers to simply as `The Feature`. 2330 music. 2341 multi-lingual ID filler reel, music. 2355 s/off and IS off before 2356* uncovering Chinese music (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.004-, March 4 at 2315, JBA carrier direct the so-called N American service in English of VOT, but after 2335 when measured via UTwente, S9+30/40; mostly music until s/off 2354 awry as if it`s the 1330 broadcast, IS chopped erroneously after only 6 notes before 2355* uncovering China music.

5960.003-, March 5 at 2259, VOT English JBA direct; 2330 into UTwente when measured, S9+20/30 with music, 2335 ``with-you-every-hour`` promo, music; 2340 ``always-by-your-side`` promo - or was it the other way around? and more music. By 2359 it`s East Turkistan only on 5960.003+; standard genocidal denunciations (Glenn Hauser, OK, WOR)

** U S A. 293 MCW kHz, Feb 27 at 0734 UT, ND beacon FBY, FairBurY NE, one of my most regulars, now accompanied by weaker UI, qUIncy IL which is normally unheard (Glenn Hauser, OK, WOR)

** U S A. 338 MCW kHz, March 1 at 0732, ND beacon RYN, at Tucson/RYaN AZ, a notable not-always-heard one now (Glenn Hauser, OK, WOR)

** U S A. 420 MCW kHz, March 2 at 0740 UT, two ND beacons mixing at about equal levels. Among the letters are P, Q, F and K. Those fit for: FQ, Fairmont MN, and PK, Olathe/Herbb KS, both 25 watts. RNA list shows periods for each: FQ `Montz` Fairmont MN, 7.941 seconds; PK Olathe KS, 5.976 sex, i.e. 8 vs 6 seconds, so eventually they will alternate but not much of a pause by either (Glenn Hauser, OK, WOR)

** U S A. 26110 NBFM, Feb 28 at 1623 UT, conversation about lying, aux KMK282 of KOVR ``13`` Stockton/Sacramento CA, its most reliable active hour. On 10m also getting beacons from California to Ontario (Glenn Hauser, OK, WOR)

** U S A. 26110 NBFM, March 3 at 1540, KMK282, aux of KOVR, only S5 and far from full quieting (Glenn Hauser, OK, WOR)

** U S A. 28470 USB, March 3 at 2145, quick contacts among domestic hams, refers to hfqso.com which shows contacts on many different bands and frequencies but this is the starter on 10m (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2283 monitoring: confirmed UT Thursday February 27 at 0130 on WRMI 5010, S9/+15 into Bonaire SDR.

Also confirmed Thursday February 27 at 1730 on SW Radio, Germany, 6160.011+, S9+5/15 into UTwente, but with heavy fast SAH from unknown CCI - China? suppposedly not until *1800. Also heavy ACI from 6165, CRI English. Much better with no QRM on 3975.002+, S9+5/10 into UTwente.

WORLD OF RADIO 2284 contents: Australia, Azerbaijan and non, Brasil, Canada, China and non, Cuba, Denmark, (Ethiopia), Europe, Finland, (France), Germany and non, México, Netherlands, Nigeria, North America, Philippines, Russia non, Somalia, Spain, Turkey and non, UK, USA and on, (Vanuatu); propagation outlook - (countries mentioned along with others not in order)

WOR 2284 available from 0055 UT Friday February 28:

2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.

Thanks this week to Terry L Krueger, Niceville FL for a contribution to Glenn Hauser, P O Box 1684, Enid OK 73702, ``for all your years of dedication to accuracy``

One may also contribute via PayPal, not necessarily in US funds, to: woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2284 monitoring: confirmed first SWBC, Friday February 28 at 1300 on WRMI 15770, S7/S8 direct.

Confirmed Friday February 28 at 2130 on IRRS SW via AM Italia, 1322.997+, S9 into UTwente.

Also confirmed Friday February 28 at 2130 on WRMI webcast only, but NOT 9955, still not on air unlike last week, presumably a fluke. O, 9955 cuts on about *2155, JIP WOR. They used to play an IS & ID loop prior to re-sign/on. Next:

2300 UT Friday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2330 UT Friday SW Radio, Germany 3975;
0400 UT Saturday WTWW 5085 [irregular];
0930 UT Saturday WRMI 9455 to WNW [has been off air; or 7730];
1530 UT Saturday SW Radio, Germany 6160;
1830 UT Saturday SW Radio, Germany 3975;
2030vUT Saturday WA0RCR 1860-AM [2000/2200];
0000 UT Sunday WTWW 9475 [suspended];
0330vUT Sunday WA0RCR 1860-AM [nominal 0415; as late as 0600];
1130 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Sunday IRRS 1323-Italy;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW [and/or 7780];
0030 UT Monday WRMI 7780 to SW;
0930 UT Monday SW Radio, Germany 6160;

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2284 monitoring: confirmed UT Tuesday March 4 at 0330 on WRMI 7780, S9+35 into S Texas SDR.

Missed checking Tue Mar 4 at 1400 on WRMI 9955; anyone hear it?

Confirmed Tuesday March 4 at 1500 on RMI 9955, JBA S9 direct.

Confirmed Tuesday March 4 at 2100 on IRRS SW via AM Italia, 1322.997,

S9+5 into UTwente; some music CCI, and by 2334 it`s Qur`an on 1322.989, S7/S8 no doubt 50 kW from Iran Azeri service // 7230 expanded to all-night for Ramadan only. Next:

0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2284 monitoring: ``from Richard Lemke, St. Albert, Alberta, Canada, the desk of Richard's listening Post, Radio: JRC NRD-535 HF (30 years of service), Antenna: random long wires in the trees, WRMI, USA, World of Radio #2284, 9395 kHz, QRN, 0030, 0045, 0057 (4-55433), 0059, March 5 UTC 2025 [Wed] (Lemke, Richard -AB)``

Confirmed UT Wednesday March 5 at 0030 on WRMI 9395, S9+30/35 into Georgia SDR. From next week; Tuesday 2330.

Also confirmed Wednesday March 5 at 2030 on SW Radio, Germany, 3975.003, S9+5/15 into UTwente.

Also confirmed Wednesday March 5 at 2200 on WBCQ 7490 -76 Hz = 7489.924, S9+15/20 into NH SDR. Preceded by TOMBS // but not synch to 9930 WTWW. 7490 concluding 2159 with failed attempt to sing; what became of the `Pirate Joe Extravaganzo` just before WOR and still on the sked?? TOMBS is on there until 2100. Of course all WBCQ times shift one real UT hour earlier from next week due to imposition of Daylight Shifting Time, funxioning like a domestic rather than planetary station; time is not and *cannot* be ``Saved`` by fiddling with clox. Next:

0130 UT Thursday WRMI 5010 to S {confirmed};
1730 UT Thursday SW Radio, Germany 3975 & 6160.

Thanks this week to Terry L Krueger, Niceville FL for a contribution to Glenn Hauser, P O Box 1684, Enid OK 73702, ``for all your years of dedication to accuracy``

One may also contribute via PayPal, not necessarily in US funds, to: woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` WBCQ chex, UT Sat March 1 at 0055 into Maryland SDR as NH is off in unsupport for some ham contest: 3265 off. 5130 -27 Hz = 5129.973 with IS & ID loop. 6160 -69 Hz = 6159.931 S4/S6 but JBM. 7490 -77 Hz = 7489.923 with FKB. 9330.00 S9+15/20 with WLCR. 0100, 5 & 7 & 9 join for WTO theme of AAAWWW; first voiceover something like ``we`re coming thru, to billions and billions of radio receivers out there`` {I don`t think so}, and one-word interjexion at end sounds like ``Fab-U-4``? 0103 segué to ``Turn Your Radio On`` hymn. I`m not paying close attention, but he plays several more tunes during the hour. 0126, ``trimulcasting on 9330, 7490, 5130``. 0152 items from new Free Radio Weekly, some station names and frequencies only, including my 12100 MRI without credit. 0155 emails, some remarx about supporting whatever Drumpf does, and ``won by a landslide`` which should be the most easily disproved lie, an insult to listeners of whatever ilk. Finished by 0200, as 5130 continues with 3 more minutes of music before 0203* chopoff (Glenn Hauser, OK, WOR)

** U S A. 9455, Feb 28 at 0938 when I happen to awaken, no signal from WRMI, as expected despite contradictory sked info on own website. 7730 is on with algo JBA. This was Friday, so usage could be different on

weekends, when WOR is supposedly scheduled Saturday at 0930. Could anyone hear it then on either frequency? (Glenn Hauser, OK, WOR)

** U S A. 9955, Wed March 5 at 1624, JBA S5/S6 presumably WRMI. Its transmitter grid shows WRMI-3 until 1600* except Saturday TOMBS -1700. System B program grid shows until 1630 daily with something from WRN before going to internet only until 2200 (Glenn Hauser, OK, WOR)

** U S A. 9455, Wed March 5 at 2321, WRMI S9+40/50 with John spelling out slowly at least thrice his VORW email address, then a music request from Windsor, Ont. WRMI skedgrid shows VORW on 7570 at this time, not 9455. Yet another contradixion (Glenn Hauser, OK, WOR)

** U S A. 7505, Feb 28 before 0700, WRNO not on the air, but worth rechecking next few latenights, as they managed to pull away from gospel-huxtering for some New Orleans fun, presumably inspired by Mardi Gras season, which peaks March 4, as reported two nights before by Ken Zichi, Port Hope, ``MI2 in the wilds of Michigan`s thumb``:

``7505 WRNO LA New Orleans with ragtime and Dixieland jazz, zydeco and other ‘New Orleans’ style music with an OM DJ, Kenneth (or was it Kevin? He mumbled a bit!) Duncan who gave a couple of IDs and mentioned his name and email contact info (at 0613 and 0617 as well as the BoH. Songs included (Dr John) “Goin’ Back to New Orleans”, “Drop Me Off In New Orleans” (Kermit Ruffins) and “New Orleans” (John Stewart) among others more obscure. A refreshing change from their usual brokered Bible bumping. Apparently this is on regularly! It’s been a while since I’ve bothered to stop here! 55555 S9+30 dB and s/n of 30+ dB darn near perfect. 0605-0645 26/Feb RSPdx +SDRuno +randomwire --Zichi MI2``

7505, UT March 1 is again unpredictably on late, at 0755, S9+25 YL in English about lobotomies, alcoholism; for Lent? (Glenn Hauser, OK, WOR)

** U S A. 7505, March 4 at 0734, WRNO on late again but only in English gospel-huxtering, S9+35/40. Hey, loosen up, it`s Mardi-Gras! (Glenn Hauser, OK, WOR)

** U S A. 9275, March 3 at 2302, WMLK is S9+30, surprisingly playing ``God Save The Queen`` -- I mean, ``King``. Couldn`t make out the lyrix, ``from every mountainside``? I heard them in morning on 15150 but not lately in afternoon on 17525 - is that one active? (Glenn Hauser, OK, WOR)

** U S A. Re my WMLK 9275 log, Mike Barraclough, UKOGBANI replies: ``WMLK would have been playing My Country Tis of Thee, the United States first national anthem, think it was adopted unofficially, before Star Stangled Banner, see lyrics, including from every mountainside, here. Was written to more or less the same tune as God Save the Queen.
https://mistressofmusic.wordpress.com/2014/02/11/my-country-tis-of-thee-vs-god-save-the-queen-did-we-rip-off-the-uk/

As a long time Neil Young fan I bought his 2012 Americana album, covers of well known folk songs. His version of God Save the Queen has a rarely sung verse; there have been many versions during the years and ends with the 16 strong Americana choir singing the verse from My Country Tis of Thee with From Every Mountainside in it. Video here with appropriate footage for both. I didn't know of My Country Tis of Thee before I bought the album.
https://www.youtube.com/watch?v=y-nPsrX05Rk

In his notes on the album Neil says how he remembers singing God Save the Queen regularly at school in Canada. Mike``

Axually I knew about the US/UK duplitune, but was hoping to prompt an interesting reply such as this; tnx, Mike! (Glenn Hauser, OK, WOR)

** U S A. 790, March 1 at 0800 UT, ID for WSGW, SaGinaW, bong and CBS News. Is U4 5/1 kW. Both day and night patterns have lobe to the SW. There are quite a few 790s closer to here than Michigan. See my last log of Nov 17, 2024 for more background info (Glenn Hauser, OK, WOR)

** U S A. 810 kHz, March 5 at 0740-0743+ UT, dead air at S9+45, surely WHB Kansas City failing to talk sports. Checking of course for the mystery 810.6v carrier, none now (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 840, March 2 at 0410 UT, Mexmx dominating on N/S antenna, and hardly any WHAS on the E/W loop. Figured it would be the TX, KVJY Pharr but it`s supposedly religious. None of the three XEs seem likely either. Soon WHAS redominates (Glenn Hauser, OK, WOR)

** U S A. ``Hey Glenn: The UNID 840 KHz is likely KVJY - the station frequently plays Spanish religious music at night (of many genres). 73, Mike Beu, KD5DSQ, Austin, Texas`` (via Glenn Hauser, OK, WOR)

** U S A. 1010 kHz, March 2 at 0411 UT, ``go, Gators``, Gainesville Chevrolet ad, Gators Basketball, who won 89-70, more local ads, ``10-10 XL`` non-ID, so it`s certainly WJXL, JaXonviL Beach FL, U4 50/30 kW. Seems its night pattern is still way out of whack, atop channel a kilomile to the west instead of all-out eastward into the Atlantic. Hey, thataway they couldn`t cover Gainesville! (Glenn Hauser, OK, WOR)

** U S A. ``Glenn, with local KLAT 1010 on a daytime only STA operation the past nine months, I have heard WJXL on numerous occasions at night here in Houston. I have also wondered about their pattern being out of whack. Stephen Luce, Houston, Texas`` (via Glenn Hauser, OK, WOR)

** U S A. 1040 & 1080, UT Sunday March 2 at 0414 UT, both WHO and KRLD ads/promos within `Our American Stories`, but not //. One of the better shows on AM talk radio, I think. If I could ever spare a nighthour, might listen to it.
https://www.ouramericanstories.com/affiliates
(Glenn Hauser, OK, WOR)

** U S A. 1150 kHz, March 5 at 0745 UT, S9+30 of dead air, surely my dominant KSAL, Salina KS, normally `C2CAM`. `Tis the season for solar transit outages on satellite feeds, but not in the nightmiddle! (Glenn Hauser, OK, WOR)

** U S A. 1530 kHz, March 4 at 0757 UT, Spanish ID for 104.9, which as I explained Feb 18, q.v., is either KXTD Wagoner OK or more likely KZNX Creedmoor TX (Glenn Hauser, OK, WOR)

U S A. 1680 kHz, March 5 at 0751 UT, deliberate talk in very strange language, like fraxured French? Heard Québec mentioned. Could be Haitian Kriyol. Yes! mwlist, but not NRC AM Log, shows WOKB Winter Garden FL is ``also in Creole``. Is atop closer KRJO Monroe LA, which regains at 0800 for ID as ``Real Country 99.7``, altho mwlist and NRC AM Log show KRJO as ``99.7 The Legend``. No WOKB ID heard around hourtop, still going in FF past 0805+. Unlike so many stations, WOKB has a detailed day-by-day, hour-by-hour program schedule,
https://wokbradio.com/the-line-up
including: ``WEDNESDAY Echo Evangelique Hosted by Pastor Sanel Petit' Frera 12:00AM - 5:00AM The best inspirational Creole programing; music, ministry, special guest and more.`` This is the only Creole block during the entire 24/7 week -- lucky me! Winter Garden is in

central, not south Florida. Motto: YOUR URBAN EMPOWERMENT AND INSPIRATION STATION (Glenn Hauser, OK, WOR)

** U S A. 93.5, March 3 at 2050 UT on caradio, `Thunder Country`, as tropo is enhancing a fringer, KKDT, Burdett KS, close, in WTFDA FMDB as ``93.5 Thunder`` not to be confused with one other, KTND Aspen CO, ``Thunder 93.5`` (Glenn Hauser, OK, WOR)

** VANUATU. 9960, Feb 28 at 0657, S6/S8 music, R. Vanuatu just in time before 0658:20* - in a few sex by the time I`ve retuned to 7260 it`s already on, stronger S9 but including more noise so less readable (Glenn Hauser, OK, WOR)

** VANUATU. 7260, March 3 at 0712, S9 but noisy music from R. Vanuatu reactivated, but not on 9960 before 0659. Ron Howard confirmed them back on 7260 earlier this date via remote, no change at 0659. And he says still on 7260 at 1908+ (Glenn Hauser, OK, WOR)

** VANUATU. 7260, March 4 0732, R. Vanuatu talk is S7/S8, even into my indoor-longwire, strung around the ceilings of two rooms, as necessitated by thunderstorms nearby - but far enough from tornado strixe (Glenn Hauser, OK, WOR)

** VATICAN. 9510, March 2 at 0351, S9+10/20 of bells and drumming, very repetitive like a loop, IS, or filler? Quite pleasant, axually. Last thing I would have guessed is VOA Somali via SMG at 0330-0400 - so yet another example of Popesite pushing far too much signal in the opposite direxion; and violating Separation Of Church And State (Glenn Hauser, OK, WOR)

** VATICAN [non?]. 13830 at S9+20 // 15565 S9+30, March 3 at 1539, VR in Somali, usual conundra, as each is the SSOB except for USA 13820, 13845, 15150, and hardly anything else from Europe, so are these SMG aiming the wrong way, or really back from MADAGASCAR? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.56, Feb 28 at 0703 UT, carrier hetting WHB 810.00 audible again direct. Sure would like to ID this; others please check (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.56, March 1 at 0727 UT, mystery carrier again hetting 810 WHB. Let me explain a quick approximation of measurements, good, I think to two, but not three decimal places on the NRD 545. In AM mode, note the pitch of the het. Then in SSB mode tune up or down in minimal steps till you hear the same pitch the main carrier makes, reconfirm by punching up the main frequency for a match, and that is where the off-frequency carrier is (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7636.0, March 4 at 0735, open carrier except for clix at rate of one per second, like a timesignal, but no minute-markers, the clix can be detected out to 7621/7647 approx. Same thing as recently heard around 9236, Feb 26 at 0737, q.v. What are these? Nothing like this on either frequency in Klingenfuß 2022 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11530.0, March 1 at 0602, S6/S7 talk, maybe English? Of course I`m checking for the pirate formerly known as Hikari FM, but it was always circa 11529.9 so probably not this. Could be Denge Gel via Armenia and/or Turkish jammer, one of many possible landings in the 11.5s, per EiBi, not Aoki. But seems to go off at 0605* (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15022 USB, March 3 at 1541, 2-way in Spanish JBA, many ``cambio``s; Klingenfuß 2022 shows AMS for this frequency, no further details, = aeronautical mobile service (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 17525, March 5 at 1623, JBA S5/S4 music and talk; could it be WMLK in the morning instead of afternoon? No, it`s now on 15150, ID in passing, only S7/9+20 in degraded propagation. Aoki lax any WMLK entries! EiBi has 15150 & 9275 only. Has WMLK deliberately stopped 17525? It`s in HFCC for B24 thru March 30, 2025; and nothing else listed on 17525 except KSDA at 00-01. So what`s this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 17665, March 4 at 1549, S5/S7 open carrier and quickly off*. Probably a test/warmup frequency, such as USAGM prior to some 1600 broadcast on another nearby frequency, which might interfere with another station/site before 1600, like Grimesland, e.g. Portuguese from 1700 on 17655 or French from 1900 on 17700. USAGM has a roster of authorized test frequencies, and wish I could see the current list. This one is a good choice for that, as absolutely nothing is scheduled on 17665 anywhen in B24 per HFCC, EiBi and Aoki (Glenn Hauser, OK, WOR)

80-METER HAM CONTESTERS, with QRZ.com info. Many get special calls as short as possible, as having to utter one more letter, especially fonetikaly, would reduce the total number of contacts over time! Also avoid that three-syllable letter, dou-ble-u:

3742 LSB, March 1 at 0747, TI1K, CQ Contest, with N5WBF in NM:
TI1K COSTA RICA flag Costa Rica, La Tigra Contest Station, San Carlos
N5WBF USA flag USA, CARL W CONNELLY, 304 WEST STREET, PO BOX 197, ELIDA, NM 88116 US {Elida is between Portales and Roswell}

3747 LSB, March 1 at 0747, K6ME with WH7T:
K6ME USA flag USA, TERRY L COBB, PO BOX 316, JANESVILLE, CA 96114, USA
WH7T HAWAII flag Hawai`i, MARK S GERBER, Kuwaikahi DX And Contest Club, 888 S King St - Palma 4, Honolulu, HI 96813, USA
QTH: The Big Island (Hawai'i Island-Grid BK29)--> Hamakua Coast

3799 LSB, March 1 at 0748, TO4A, with a Georgian:
TO4A MARTINIQUE flag Martinique, Yuri Onipko, QSL Via VE3DZ (QRZ.COM), Martinique, Martinique

3815 LSB, March 1 at 0751, J6EK, CQ Contest:
Your Search by Callsign found no results for J6EK
J6EK looks like a callsign from ST LUCIA (DXCC Entity #097).

3825 LSB, March 1 at 0752, PJ2T:
PJ2T CURACAO flag Curacao, CARIBBEAN CONTESTING CONSORTIUM, #1 Groot Santa Marta, (Please don't send mail direct to Curacao, see below)
Curacao - lots of info: https://www.qrz.com/db/PJ2T
(Glenn Hauser, OK, WOR)
